

WHO WE ARE  
learn more about Végéphyl

# Our history:

AFIP : French interprofessional association for training and improvement in phytopathology and phytopharmacy

AFPP : French association for crop protection

ANPP : National association for crop protection

COLUMA : French weed management commission

SFPP : French society for phytiatrics and phytopharmacy

# Our mission:

« promoting scientific exchanges and information based on reliable references and the experience of our members, in order to protect plants sustainably for the benefit of mankind and his food. »

# Our missions:

Being a proactive player in changes to cropping systems

Providing farmers with reliable information to support them in adapting their cropping systems

Developing methods adapted to the future of agriculture

# Our values:

## Quality

Communication of reliable information and references discussed

## Neutrality and impartiality

An independent structure, democratic and with a transparent functioning

## Volunteer expertise

An Association gathering French experts with complementary skills in plant health

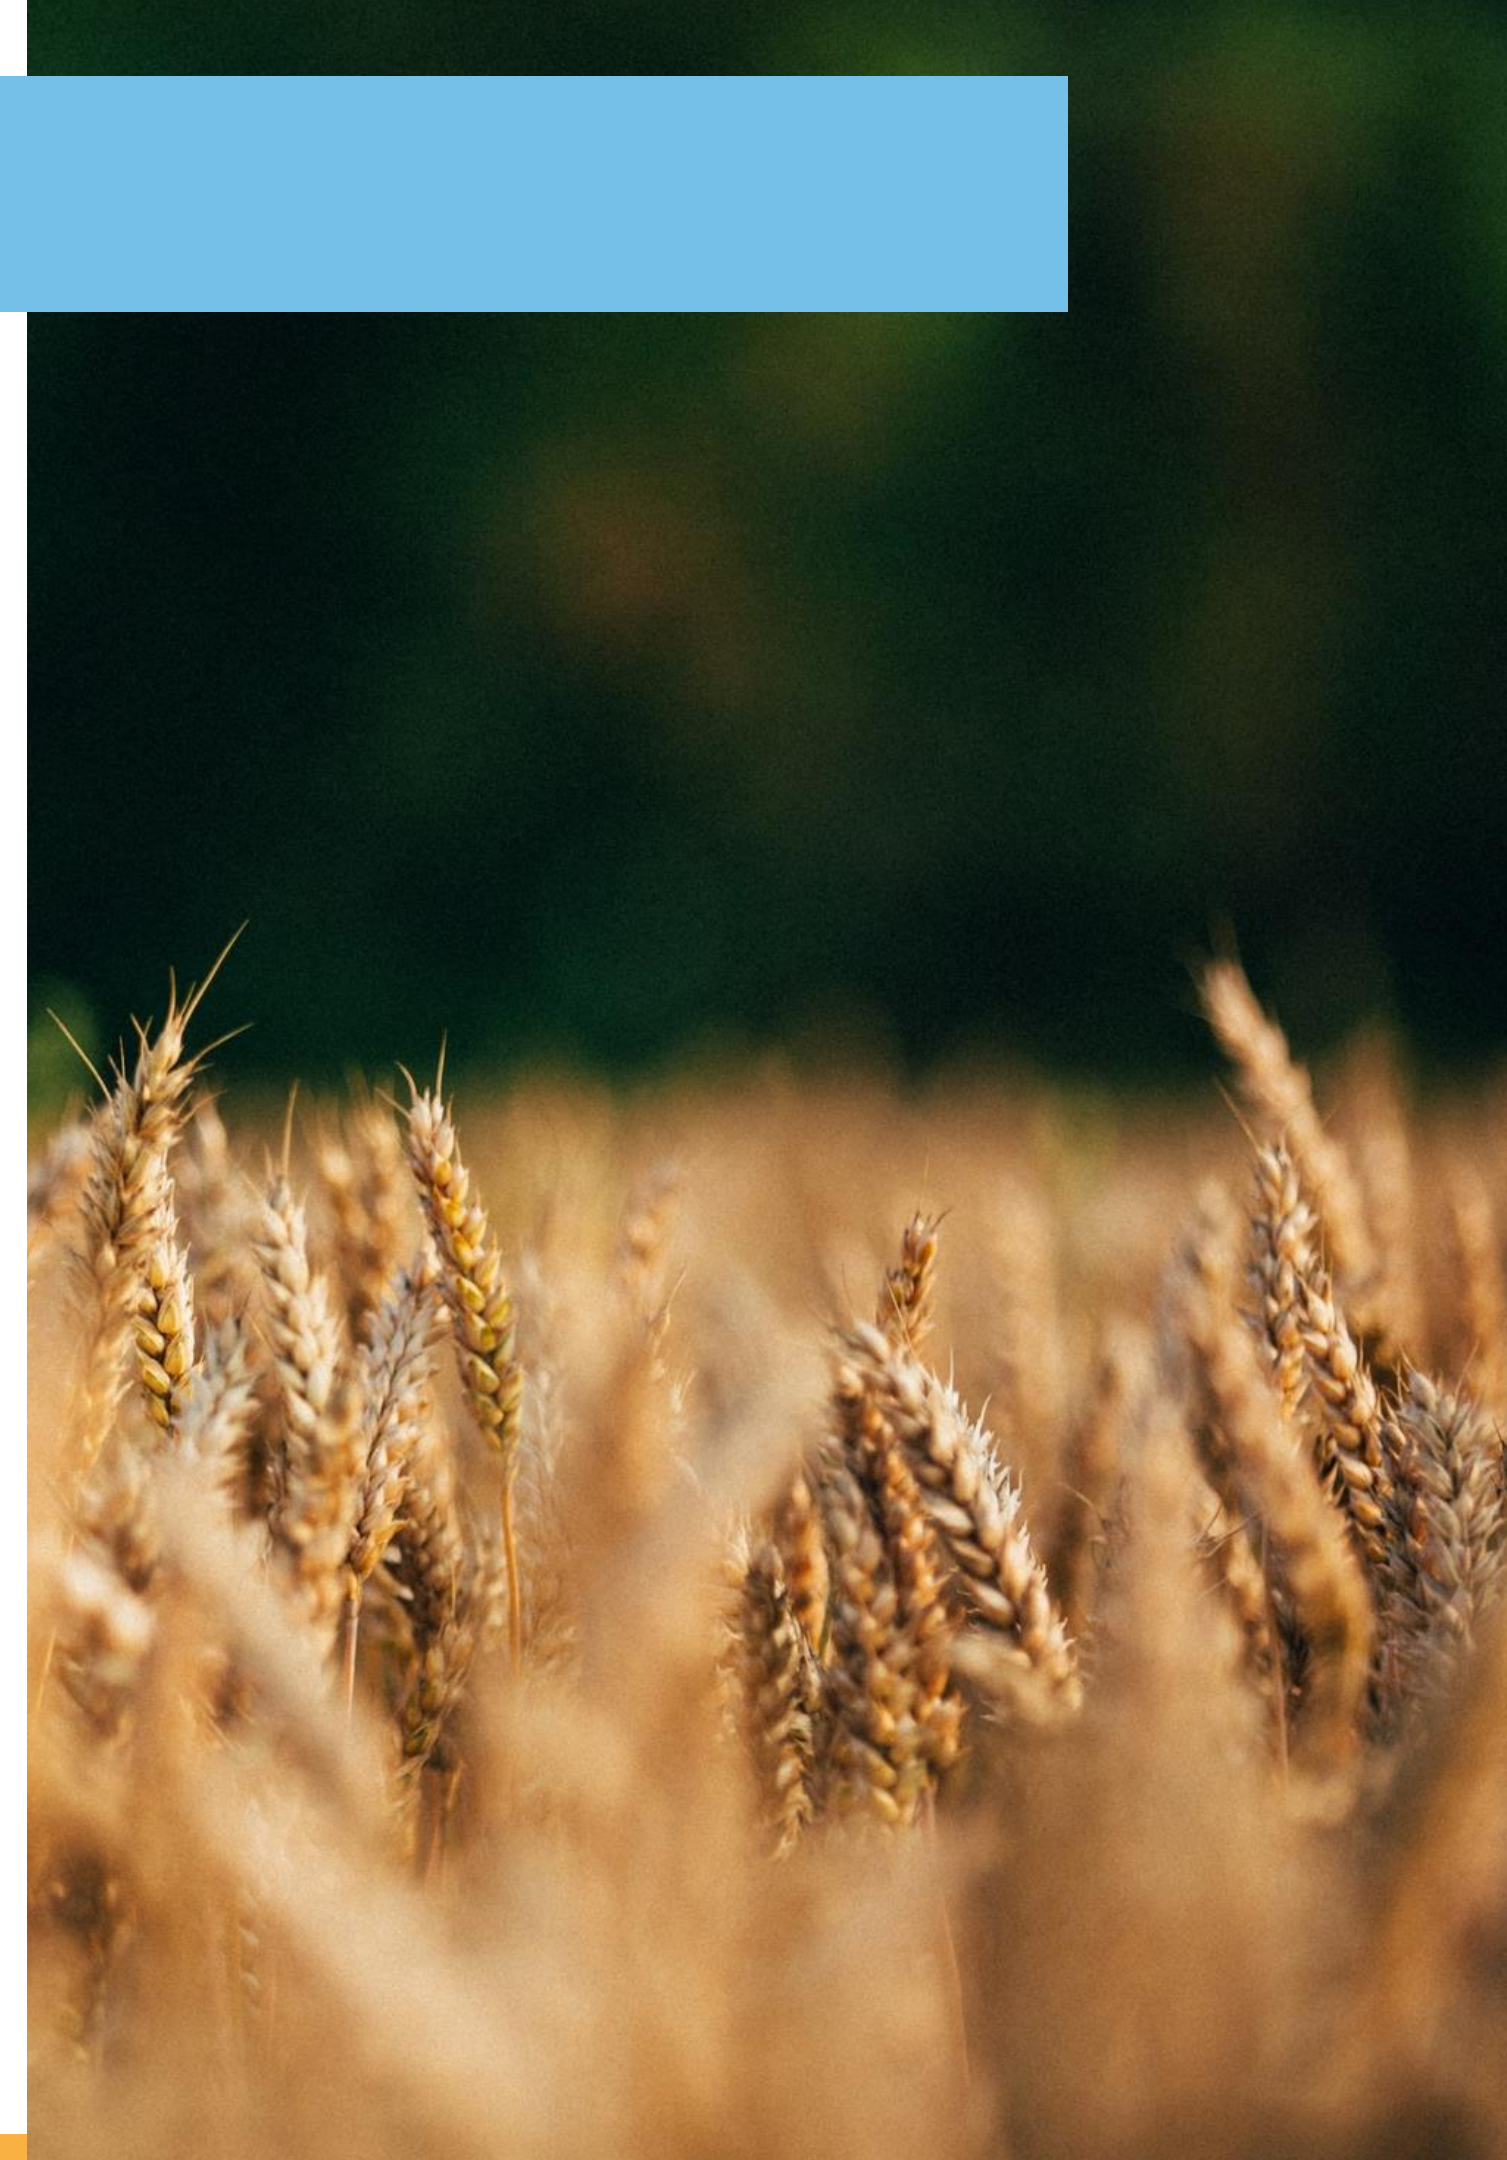

# Why join us?

- To be connected with agricultural experts keen to promote scientific discussions and work
- To reflect on and contribute to new approaches in agriculture
- To share your own experience and learn from the others
- To optimize your skills

# Our organization :

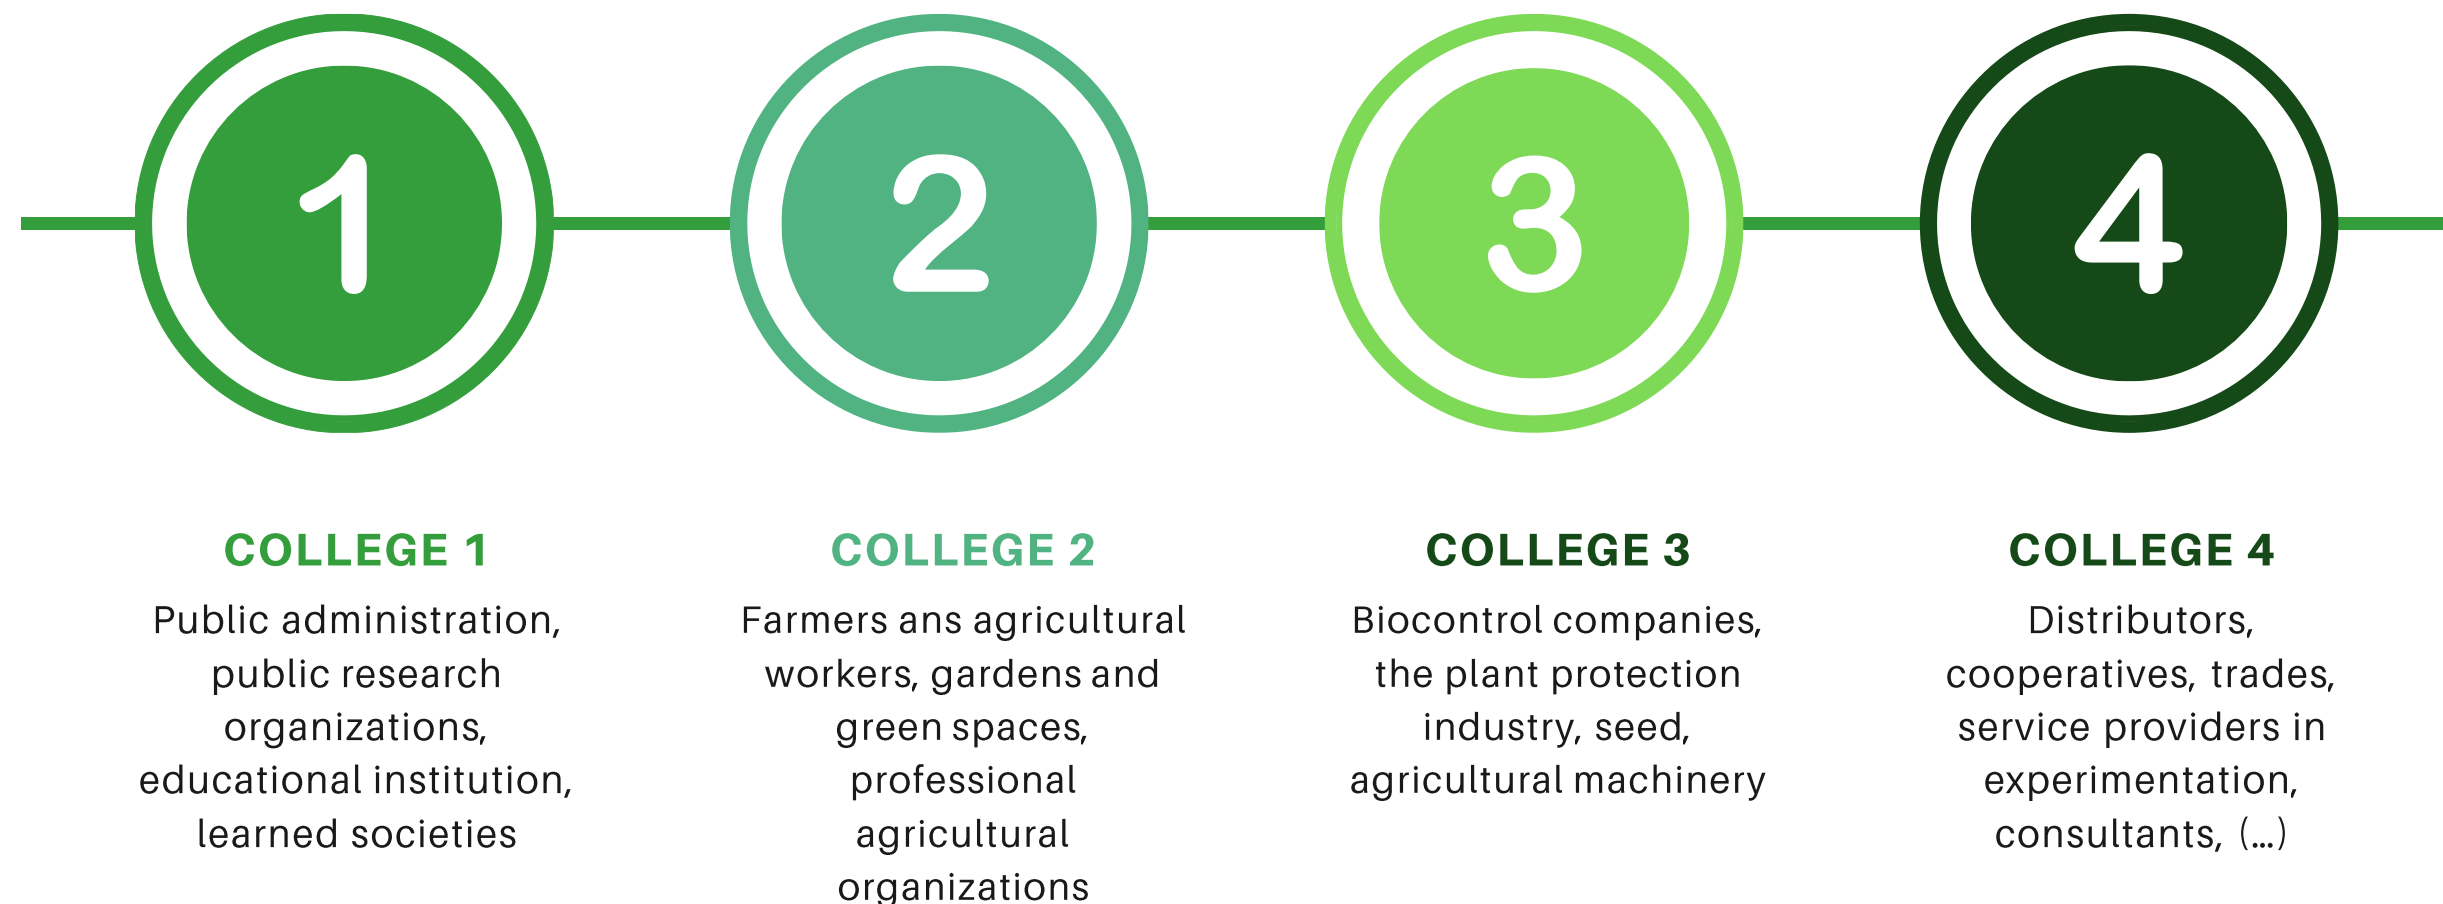

**ASSOCIATION**  
400 members divided into 4 colleges

## GOVERNANCE

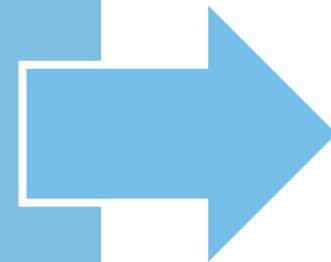

4 professional colleges covering the plant health sectors.  
1 administrative council: 36 members from the 4 colleges (9 members per college), elected for 3 years, renewed by thirds every year.

# Our organization:

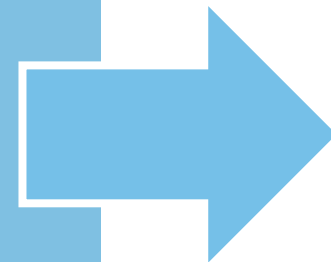

## OFFICE

**Executive committee is elected each year by the Administrative council:**

- 1 President
- 4 Vice-presidents (1 member per college)
- 1 General secretary
- 1 Treasurer
- 5 members

## THE SUPPORT SERVICE (EMPLOYEES)

Alice  
Baudet

Director

Maryvonne  
Gandon

Administrative  
and  
accounting  
manager

Michèle  
Armengaud

Training  
facilitator and  
administrative

# Our goals:

## Plant health

Broaden our skills in crop protection by integrating the agro-ecological dimension and seeds.

## Registration

Supporting and anticipating regular changes in plant health.

## Technical knowledge of actors in the field

Provide technical and regulatory knowledge to field workers for supporting the agro-technical transition.

## Agronomy

Participate in the redeployment of research results toward more agronomic approaches.

# Our conferences:

« Disseminate and highlight information on plant health. »

## CIRAA

**International conference on pests and beneficials in agriculture**

*Last edition: October 2021 in Montpellier –*

*Next edition: October 2024 in Montpellier*

## CIMA

**International conference on plant diseases**

*Last edition: December 2022 in Orléans –*

*Next edition: December 2025 in Angers*

## COLUMA' days

**International weed management days**

*Last edition: December 2023 in Orléans -*

*Next edition: December 2027*

## COMAPPI

**Conference on alternative methods of crop protection**

*Last edition: March 2022 in Lille –*

*Next edition: December 2026 in Lille*

**Végéphyll**  
Association pour la santé des végétaux

# Our training courses:

« Transmit technical and regulatory skills in plant health. »

**Végéphyll**  
Association pour la santé des végétaux

## Biological trials

*Methods, protocols and interpretation experimental trials*  
*Practices and realities of experimental trials*  
*Experimental equipment and safety*

## Regulation

*Biological Assessment Dossier*

## Biocontrol

*What is biocontrol and how to use it ?*

## Entomology

*Pests and beneficials in field crops*  
*Pests and beneficials in perennial crops*

# Our 11 committees:

« At the heart of Végéphyll, 11 committees to discuss and share ideas on their respective topics. »

**Epidemio-surveillance**

**MPPI**

Alternative methods of crop protection

**CEB**

Commission for biological trials

**JEVI**

Gardens, green spaces and infrastructures

**CIETAP** - Interprofessional commission for study of techniques for applying phytosanitary products

**Plant diseases**

**COLUMA**

French weed management commission

**Pests and beneficials**

**Training courses**

**Regulation**

**Terminology**
